

Preparing for an immigration X-ray

Once you are registered with an approved NZ panel doctor, Allevia Radiology can help you with your immigration X-ray. You can book online at alleviaradiology.co.nz or walk into one of our branches on the next page.

Requirements:

For all Visas:

Please bring your original passport to your appointment.

For New Zealand and Australian immigration:

You must have had a recent medical examination in New Zealand or have registered with an approved NZ panel doctor. Your approved NZ panel doctor will give you an eMedical Information Sheet with a current NZER number (New Zealand) or a HAP number (Australia).

For USA immigration:

You will need to see a panel physician first at CityMed Doctors. A CEAC number will be issued to you by the panel physician if your application is lodged online. This CEAC number is required at the time of your X-ray. If your application is lodged on paper forms, please bring all the paper documents along with your passport and referral.

For Papua New Guinea immigration:

Please ensure you bring the doctor's referral, your passport and documents for our radiologist to sign.
